

Objective

The Yacktman Focused Fund seeks long-term capital appreciation and, to a lesser extent, current income.

Performance

Average Annualized as of June 30, 2010

	1 Year	3 Years	5 Years	10 Years
Yacktman Focused Fund	20.06%	5.88%	7.26%	12.49%
S&P 500 Index	14.43%	-9.81%	-0.79%	-1.59%

The performance data quoted for the Yacktman Funds represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that the investor's shares, when redeemed, may be worth more or less than their original cost. The current performance may be higher or lower than the performance data quoted. Performance current to the most recent month end can be obtained at www.yacktman.com or by calling 1-800-525-8258. The fund imposes a 2% redemption fee on shares sold within 30 days or less after purchase. Performance data does not reflect these redemption or exchange fees and if reflected returns would be lower.

Growth of 10K

This chart illustrates the performance of a hypothetical \$10,000 investment made 10 years ago. Assumes reinvestment of capital gains and dividends, but does not reflect the effect of any applicable sales charges or redemption fees. This chart is not intended to imply any future performance and represents past performance.

Disclosures

Beta is a measure of the portfolios sensitivity to the market. The Price to Earnings (P/E) Ratio reflects the multiple of earnings at which a stock sells. The Standard and Poor's 500 Index (S&P 500) is a widely recognized, unmanaged index of common stock prices that includes the reinvestment of dividends, but does not include adjustments for brokerage, custodian and investment management fees. One cannot invest directly in an index.

Mutual fund investing involves risk. Principal loss is possible. Investments in smaller companies involve additional risks such as limited liquidity and greater volatility. The Fund is non-diversified, meaning it may concentrate its assets in fewer individual holdings than a diversified fund. Therefore, the Fund is more exposed to individual stock volatility than a diversified fund.

An investor should consider the investment objectives, risks and charges and expenses of the Funds carefully before investing.
